PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Edgemont Union Free School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

Students, staff, parents and others are informed annually about the importance of reporting threats or acts of violence and the procedures of reporting.

The District has developed a system for reporting threats and actual acts of violence. The procedure for reporting is as follows:

- Students are instructed to report threats and acts of violence to staff members.
- Each school has designated a reporting process, which can be done anonymously.
- Staff members are required to report all student referrals to the administration for investigation.
- Staff training programs meet S.A.V.E. requirements. Instruction on issues of school safety is provided to all employees each year.

TRAINING, DRILLS AND EXERCISES

Drills and Exercises:³³

Drills conducted during the school day with students present shall be conducted in a trauma-informed³⁴, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency.³⁵ The New York State Fire Code requires that the fire alarm be used in an evacuation drill, and it is not considered a prop.

At the time that drills are conducted, students and staff shall be informed that the activities being conducted are a drill. Provided, however, that students and staff shall not be informed in advance of evacuation drills.³⁶

The District will conduct emergency management drills and exercises annually including, but not limited to:

EVACUATION AND LOCKDOWN DRILLS.³⁷ Evacuation and lockdown drills will be conducted during school days in each school within the District with staff and students twelve (12) times annually (September – June). The first eight (8) drills are conducted prior to December 31st of each school year. Six (6) of all such drills shall be evacuation drills. Four (4) of all such required drills shall be lockdown drills with two (2) of these drills being held between September 1st and December 31st. Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with students during class time. Students are also provided the opportunity to ask questions on any procedure that they are not clear on. The appropriate Fire Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding effective building evacuation in the event of a fire. Four of the required drills must be through use of the fire escapes on buildings *where fire escapes are present* or through the use of identified secondary means of egress.³⁸ The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the lockdown drills and offer feedback regarding the effectiveness of these drills. Drills shall be conducted on different dates as well as days of the week and times of day with at least one of the eight required evacuation drills occurring during a mass gathering event such as lunch or assemblies. Instruction in drill procedures, including during lunch periods and assemblies, is

At their discretion, schools and districts may participate in full-scale exercises in coordination with local and county emergency responders and preparedness officials

³⁴ 155.17(b)(20-22) Trauma means an emotional response to a deeply distressing or disturbing experience such as, but not limited to, an act of violence, natural disaster, abuse, neglect, or loss. Trauma-informed means an understanding of trauma and how it affects the physical, emotional, and mental health of students and adults. Trauma-informed drills means avoiding tactics in training or drills that may introduce or activate trauma, such as the use of props, actors, simulations, or other tactics intended to mimic a school shooting, incident of violence, or other emergency, or inclusion of developmentally or age-inappropriate content. Drills may inadvertently prompt a negative emotional or psychological response in staff or students because of previous exposure(s) to trauma.

³⁵ 155.17(4)(xiv)(1) Drills conducted during the school day with students present shall be conducted in a trauma-informed, developmentally, and age-appropriate manner and shall not include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency.

conducted annually by staff.³⁹ At least two additional drills must be held during summer school in buildings where summer school is conducted, one must be held during the first week of summer school.⁴⁰Unplanned evacuations or false alarms do not count as a required drill. Evacuations made necessary by the unplanned activation of the fire alarm system or by any other emergency shall not be substituted for a required evacuation drill.⁴¹

Prior to the commencement of each school year, the Building-Level Emergency Response Planning Team shall conduct an inventory of any special needs students. Appropriate accommodations for the school year will be incorporated into each Building-Level Emergency Response Plan.

Drills will be monitored by the District-wide Safety Committee in compliance with RESCUE Regulations – Part 155.4(d), annually. It will be done in coordination with local and county emergency responders and preparedness officials. All required staff training provided by the District and BOCES will be completed annually.

Schools will conduct a minimum of eight of the required twelve drills prior to December 31st each year. The Superintendent’s designee will monitor progress towards the NYSED mandated drills at each school on or about the 1st of each month, providing status updates to the administration at each school site who have not yet met the mandated number of drills.

The Superintendent’s designee will maintain and reconcile records related to the required drills completed at each school site. On or about July 15th of each year, this individual will provide a completely reconciled record of the drill conducted at each school site to the Assistant Superintendent for upload on the NYSED Business Portal. After successful upload, the Superintendent will finalize and certify the submission online. Submissions will be completed no later than July 31st of each year.

In addition to post-drill debriefings conducted by each building-level emergency response planning team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.⁴⁴

Each Building-level Emergency Response Planning Team and representatives of the District administration engage in tabletop exercises facilitated by the district's emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. Such exercises may not include students without written consent from parents or persons in parental relation.⁴⁵ The school board will ensure that information about drills be provided in the teacher's manual or handbook.⁴⁶ Exercises that include props, actors, simulations, or other tactics intended to mimic a school shooting or other act of violence or emergency may not be conducted on a regular school day and when school activities such as athletics are occurring on school grounds. PROACTIVE BUILDING SECURITY MEASURES

1. The District buildings use limited points of entry. All doors are locked. Signs are in place directing visitors to sign-in at the reception desk at each school. Main doors are controlled by remote “buzzer” entry during normal school hours.
2. All schools have security consultants or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the security consultants and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.
6. All contractors assigned to work in any building must first be authorized by the Facilities Department to receive an identification badge, which must be visible at all times when workers are on school property. All deliverables and delivery personnel must first be authorized by the Facilities Department, prior to delivery.
7. All District schools have fire and intrusion alarm systems.
8. The District will review additional security equipment and measures annually and will revise as necessary.
9. The Edgemont School District has staff in the high school and middle school buildings who are assigned to monitor entrances and parking lots, patrol hallways, supervise cafeterias, and check restrooms.
10. Elementary buildings will have staff at the single entry point.

11. All policies and procedures related to school building security will be reviewed annually and revised as necessary.

VITAL EDUCATIONAL INFORMATION⁵³

Information on each building's student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR⁵⁴

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A "plain language" summary of the District's Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.
2. A "plain language" summary of the District's Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District's schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, nurses, outside agencies (when appropriate), administrators, teachers, bus drivers, parents/guardians and students may be involved in this process.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.

⁵³ 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

⁵⁴ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community, and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, parents [and] or other persons in parental relation to students of the school district or board, students and other persons deemed appropriate to receive such information;

6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual's behavior, and on responsible decision-making.
7. Each of the District's school psychologists may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the Committee on Special Education as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

SCHOOL SAFETY PERSONNEL ALLOCATIONS, HIRING, DUTIES, AND TRAINING⁵⁵

PRIVATE SECURITY

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline is delegated to school administration.

SECURITY ALLOCATIONS

At the elementary level, there is a single point of entry for visitors at each building and visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a security consultant. Staff in the building all wear district-produced identification badges which must be worn at all times. Staff is trained to report to the main office any person they observe who is not wearing a badge.

At the junior-senior high school level, there is a single point of entry for visitors, which is staffed during normal school hours by one of several staff members or safety personnel assigned to the High School. Visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a security consultant. Staff in the building all wear district-produced identification badges, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <https://www.edgemont.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e., sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.⁵⁶

The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Planning Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.
4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, teachers, other school personnel, bus drivers, or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Planning Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.⁶⁰

⁵⁹ 155.17(c)(1)(i) policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel including bus drivers and monitors, and visitors to the school, including threats by students against themselves, which for this subdivision shall include suicide;

⁶⁰ 155.17(c)(1)(iv) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

10. The district has a zero-tolerance policy for acts of school violence.

Removing Violent Individuals

- a. Aggressively dangerous and violent students should be restrained only by qualified staff (TCI or CPI certified). Police should be called to remove the student.
- b. Violent adults are to be reported immediately and the authorities are to be called. These adults are to be removed by police only.
- c. Students and staff should be in lockdown mode when violent people are in the school.

Reporting Incidents

- a. School administrators must keep a record of serious threats and acts of violence and report them annually to the state.
- b. Incidents of violence, serious threats, intimidation etc. may require involvement of police.
- c. District and building administrators are authorized to call police to respond to the threat or act of violence.

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

BACKGROUND

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

ACTIVATION

These protocols have been developed to respond to a public health emergency. Directive shall come from New York State Education Department, New York State Department of Health, Westchester County Department of Health, or other appropriate agency for this protocol to be activated.

DEFINITIONS

Essential shall refer to a designation made that a public employee or contractor is required to be physically present at a work site to perform his or her job. (S8617/A10832 section 1(d), NYS Labor Law Section 27-c (1)(d)).

Non-essential shall refer to a designation made that a public employee or contractor is not required to be physically present at a work site to perform his or her job. (S8617/A10832 section 1(e), NYS Labor Law Section 27-c (1)(e)).

Communicable disease shall mean an illness caused by an infectious agent or its toxins that occurs through the direct or indirect transmission of the infectious agent or its products from an infected individual or via an animal, vector or the inanimate environment to a susceptible animal or human host. (S8617/A10832 section 1(f), NYS Labor Law Section 27-c (1)(f)).

Personal protective equipment shall mean all equipment worn to minimize exposure to hazards, including gloves, masks, face shields, foot and eye protection, protective hearing devices, respirators,

hard hats, and disposable gowns and aprons. (S8617/A10832 section 1(a), NYS Labor Law Section 27-c (1)(a)).

POSITIONS & TITLES DEEMED ESSENTIAL

A listing of all job titles, job descriptions, and a determination regarding whether the role is deemed essential in the event of a state-ordered reduction of in-person workforce can be accessed [here](#).

“Essential” shall refer to a designation made that the employee is required to be physically present on-site in order to perform his/her/their job. “Non-essential” shall refer to a designation made that an employee is not required to be physically present on-site to perform his/her/their job duties. By declaring an employee essential, we do not imply that intermittent remote-based work may not be appropriate, but rather that as a function of the job, some on-site work is required.

Decisions regarding the frequency, if at all, essential employees will be permitted or asked to work remotely will be up to the discretion of their immediate supervisor in consultation with the Superintendent of Schools.

PROTOCOLS FOR NON-ESSENTIAL EMPLOYEE REMOTE-BASED WORK

A listing of all job titles, job descriptions, and a determination regarding whether the role is deemed non-essential in the event of a state-ordered reduction of in-person workforce can be accessed [here](#).

Employees deemed non-essential and asked to work remotely will be outfitted with the necessary technological tools to perform their specific duties from an alternate work environment. This includes, upon request, the deployment of school-purchased Chromebooks and PC-based laptops to staff working in this environment.

Phone lines will be transferred for all clerical staff members deemed non-essential to the phone number of their choosing.

Non-essential District Office staff requiring access to software applications and servers only accessible through the District network (e.g., nVision) will be provided with PC-based laptops and a VPN (Virtual Private Network) through the LHRIC providing the same level of access and security afforded on campus to our financial and human resource database. At least one, but no more than two, clerical staff members and one administrator from each building will be provided with the same level of access outlined above. All building-level requisitions will be forwarded to the clerical staff member outfitted with nVision access. Budget-builders (e.g., department chairs, teacher leaders, etc.) themselves will not be provided with this level of access.

In an instance in which the operations essential to the functioning of the District Office can not be completed on-site, the District may choose to enact its 'Business Operations Continuity and Disaster Preparedness Plan'. Copies of such plans are held by the Assistant Superintendent and Southern Westchester BOCES LHRIC.

STAGGERED SCHEDULES & SHIFTS

Where a mandatory social distance of six-feet cannot be established for all essential staff, administrators will develop a staff rotation or reassign desks/work locations.

In the District Office, a rotation of essential employees will be followed to ensure that no more than fourteen individuals are in-person at one time, with locations determined for each that ensures a minimum of six feet between desks.

At the Junior/Senior High School, we have one clerical member assigned to the Main office. We have a clerical member in her own office who is responsible for attendance. Two clerical employees are assigned to the Counseling Office. These clerical members will be scheduled to work in that space at their desks, with tempered glass partitions, which are more than six feet apart. Our two school nurses occupy the same office, but are greater than six feet apart. Tempered glass has been installed around each of their desks. Our technology team will occupy individual spaces in the library to maintain social distance. The administrators will work in their individual offices alone.

At Greenville Elementary School, the two clerical employees assigned to the Main Office will be scheduled to work in that space at their desks which are more than six feet apart and have been retrofitted with tempered glass partitions that surround their desks on all sides. The nurse will occupy the Health Office alone. The administrators will work in their individual offices alone. These five individuals and a rotating custodial staff will be the only staff on site and will be able to work under social distancing guidelines.

At Seely Place Elementary School, the two clerical employees assigned to the Main Office will be scheduled to work in that space and the nurse will occupy the Health Office. The administrators will work in their individual offices.

Custodial and Maintenance Staff will be deployed as follows:

EHS Custodial Staff (11 employees) - Two shifts (day and evening). Two employees on day shift with 2-way radio communication to cover campus and maintain daily operational protocols. Nine employees on evening shift (one in each building) with 2-way radio communication to perform end of day cleaning and disinfecting as needed.

Greenville and Seely Custodial Staff (5 employees each school) - Two shifts (day and evening). Two employees on day shift with 2-way radio communication to cover building and maintain daily operational protocols. Three employees on evening shift (one in each section) with 2-way radio communication to perform end of day cleaning and disinfecting as needed.

DW Maintenance Staff (2 employees) - Day shift. Both employees will split up and cover the district with one serving the HS campus and the other covering the elementary schools.

DW Grounds Staff (4 employees) - Day Shift. The employees will report to the garage maintaining six feet distance and pick up their assignments for the day. There will be plenty of room for them to work independently of each other in performance of daily tasks on the school grounds.

PERSONAL PROTECTIVE EQUIPMENT

The district will strive for the optimal social distance of six feet at all times, with all persons wearing masks. Essential staff and visitors to our schools will be required to wear face coverings indoors and outside at all times except when expressly permitted to remove them for mask breaks.

Face coverings will be provided to all essential staff, if needed, at no cost. [Acceptable face coverings for COVID-19 include](#), but are not limited to, cloth-based coverings and surgical masks that cover both the mouth and nose.

The district will instruct essential staff on:

- The proper way to wear face coverings
- Washing hands before putting on and after removing their face covering
- Proper way to discard disposable face coverings

The district will have disposable masks for use by those who don't have one at each entrance and will purchase fitted N95 masks and other appropriate PPE for the school health professionals and others who are deemed to medically require additional protection.

Storage of all personal protective equipment (PPE) including, but not limited to disposable masks, plastic face shields, gowns, and N95 masks will be monitored and controlled by the Director of Facilities. Any requests for PPE beyond the disposable masks located at each entrance, should be made via email to both Rosario Renda (Director of Facilities - rrenda@edgemont.org) and Kenneth R. Hamilton (Superintendent of Schools - khamilton@edgemont.org).

RESPONSE TO EXPOSURE

SELF-REPORTING EXPOSURES AND INFECTIONS

In the event an employee reports testing positive for COVID-19 or other communicable disease or receives a call from the DOH that they have been exposed to a person who tested positive for the same:

- The employee should immediately notify the district by contacting their immediate supervisor.

If there is a declared state disaster emergency involving a communicable disease that involves the Edgemont Union Free School District, all staff, essential and non-essential, will be contacted, and they will be guided by the aforementioned protocols.

OTHER: Any other requirements determined by the Department of Health such as contact tracing, testing, physical distancing, hygiene, disinfecting, drill modifications, or mask-wearing.

IDENTIFICATION OF DISTRICT RESOURCES WHICH MAY BE AVAILABLE FOR USE DURING AN EMERGENCY⁶¹

District resources are available in each building and stored in a central location. Each building will designate a Command Post. The list, which is not meant to be inclusive, requires the following items:

- Copy of District-Wide School Safety Plan
- Building-level Emergency Plan
- Quick reference Emergency Management Procedures
- List of emergency telephone numbers
- Building floor plans
- Telephones
- Radio communications
- Weather radio
- Flashlights
- Photocopier

- School and staff census information

⁶¹ 155.17(c)(1)(vii) except in a school district in a city having a population of more than one million inhabitants, the identification of district resources which may be available for use during an emergency;

COORDINATION AND SCHOOL DISTRICT RESOURCES AND MANPOWER DURING EMERGENCIES⁶²

The District will, as appropriate, utilize all available manpower during an emergency. Within each building, schools may use the Staff All Call response protocol, which quickly summons all available staff members to a staging area for assignments. Coordination of available employees is typically performed by the Principal or their designee. Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

PARTICIPATING IN UNIFIED COMMAND UNDER ICS PRINCIPLES

ASSIGNMENT OF RESPONSIBILITIES

A chain of command consistent with the National Interagency Incident Management System (NIMS)/Incident Command System (ICS) will be used in response to an emergency. Members of the School, Emergency Response Team, will be part of this system. In the event of an emergency, the response team will adopt NIMS/ICS principles based on the size, scope, and character of the emergency.

1. All administrators and Building-level Emergency Response Planning Teams members shall complete the incident command training level one.
2. All District Emergency Response Team members shall complete incident command training level one and level two.

EMERGENCY REMOTE INSTRUCTION

OVERVIEW

The District may offer remote instruction days to students in the event-of-an-emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- A. "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- B. "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- C. "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 - 1. Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 - 2. Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- D. "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in remote instruction.⁶³ No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.⁶⁴ The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

⁶³ 155.17(xxi)(a) ensure computing devices will be made available to students

⁶⁴ 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

Obtaining assistance during emergencies from emergency service organizations and local government agencies⁶⁵

1. The district continues to work closely with local police, fire, EMS, and governmental agencies to obtain assistance during emergencies. Representatives helped in the development of this plan, have assisted in emergency drills, and provided technical assistance. Providers have given approval to the district to rely on local personnel, resources, and facilities in emergency situations.
2. The district maintains an updated list of local, county, and state agencies and personnel to contact to obtain assistance. The superintendent or their designee will initiate the contact when needed.

Responsibility for declaring an emergency

1. District wide – the responsibility for declaring a District-wide emergency shall rest with the Superintendent or chain of command.
2. Individual buildings – the responsibility for declaring a building-wide emergency shall rest with the principal or a chain of command.

Obtaining advice and assistance from local government officials, including the county or city officials responsible for implementation of article 2-B of the Executive Law⁶⁶

1. The district maintains an updated list of local and county emergency organizations, agencies, and government officials responsible for implementation of Article 2-B of the Executive Law. The superintendent and their designee will initiate the contact when needed.
2. The Edgemont School District has worked closely with local emergency services agencies for support and assistance during emergencies, have included their representatives on our safety planning teams, provided them with pertinent information (ex. Building maps), and have included their personnel in planning and implementing safety-related drills. Providers have given approval to the Edgemont Schools to rely on local personnel, resources and facilities in emergency situations. Our plan provides for accessing emergency mental health services in the event of an emergency or violent incident from SWBOCES and other county, regional, and private mental health agencies.
3. For fire, EMT and medical emergencies, we use 911. For violent acts, the district protocol is to notify the law enforcement immediately. The primary responsibility for these calls is the building principal or designee. A call is then made to the superintendent who has the responsibility to notify other key officials.

⁶⁵ 155.17(c)(1)(v) except in a school district in a city having a population of more than one million inhabitants, a description of the arrangements for obtaining assistance during emergencies from emergency services organizations and local governmental agencies;

⁶⁶ 155.17(c)(1)(vi) except in a school district in a city having a population of more than one million inhabitants, a description of the arrangements for obtaining assistance during emergencies from emergency services organizations and local governmental agencies;

4. The key officials in local government that can help to develop plans and assist in emergency situations as listed in emergency situations are listed in Appendix 4. Key government agencies are listed below:

1. Greenburgh Police Department
2. Greenville Fire Department
3. New York State Police
4. Westchester County OEM
5. Westchester County Police Department
6. EMS - Greenburgh Police Department
7. EMT Service - Greenville Fire Department
8. Red Cross

Contacting Parents, Guardians or Persons in Parental Relation to the Students of the District in the Event of a Violent Incident or an Early Dismissal⁶⁷

In the event of violent incidents or crises, or an early dismissal of students, every effort will be made to notify parents. As soon as practical, the Superintendent or their designee shall activate the emergency notification system that will provide relevant information. Parental notification procedures for a student involved in disciplinary situations shall be consistent with the Code of Conduct and New York State law, and shall be presented clearly and concisely to staff and students each year.

When a student is involved in any violent situation, or an implied or direct threat of violence by such student against themselves, including suicide, parent or guardian shall be contacted as soon as practicable.⁶⁸ Administration shall utilize school mental health resources when necessary.

It is the responsibility of all parents and guardians to ensure that emergency contact information for students is always up-to-date and complete.

Procedures for contacting parents, guardians and persons in parental relation to the students of the district in event of a violent incident or early dismissal are as follows.

1. The district procedure for early dismissal and parent notification is as follows:
 - a. Superintendent or his/her designee decides on an early dismissal.
 - b. Central and building administrators are informed.
 - c. Staff and students are informed of closing.
 - d. Superintendent notifies parents as per appendix 1.
2. Parents will receive information about the threat or act of violence that determined an early dismissal in their child's school as soon as is practical. This information is limited to information the school is legally permitted to disclose.

⁶⁷ 155.17(c)(1)(ix) policies and procedures for contacting parents, guardians or persons in parental relation to the students of the district in the event of a violent incident or an early dismissal;

⁶⁸ 155.17(c)(1)(x) policies and procedures for contacting parents, guardians or persons in parental relation to an individual student of the district in the event of an implied or direct threat of violence by such student against themselves, which for the purposes of this subdivision shall include suicide;

Procedures to contact parents, guardians or persons in parental relation to the students in the event of a violent incident or an early dismissal.

1. Emergency dismissals are broadcast as per Appendix 1. Students will be taken home or to secondary drop-off site. Students without access to their home or alternative drop-off sites will be returned to school for temporary sheltering and supervision until parents are available for pick-up. Every effort will be made to contact the parents of these sheltered students.
2. Each school will develop an early dismissal plan to include one of the following: staggered dismissal, rapid parent pick-up strategies, student attendance procedures and alternative sheltering sites.

SECTION V RECOVERY

CONTINUITY OF OPERATIONS

This district maintains continuity of operations at both the district and building level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

CONTINUITY OF INSTRUCTION

The District offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with students include online services including:

- Google Drive with shared folders
- GSuite (Docs, Sheets, Slides, Forms, Classroom, Sites)
- Gmail

Detailed grade-specific remote instructional procedures are contained within each building-level emergency plan.

Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.

DISTRICT SUPPORT FOR BUILDINGS

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

DISASTER MENTAL HEALTH SERVICES

The District Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.

APPENDIX 3 - COMMUNICATION PROTOCOLS

Communication Protocols and Procedures for Parents and Guardians:

It is extremely important that parents and guardians do their part to ensure that the school district can get in touch with them in an emergency.

Each summer, parents and guardians will receive an “Emergency Contact Form” that lists important information about each student, including parents’ phone numbers, email addresses, etc. Parents must review these forms, correct any information that is inaccurate or has changed, and return them to the principal’s office as quickly as possible. Information in our database can be changed at any time by calling the principal’s office in your child’s school.

Different forms of communication are outlined below. Depending on the circumstance you will be informed in a timely manner that is appropriate for the emergency we are facing or one that minimizes unnecessary interruptions in a non-emergency situation:

Email

Administrators and teachers periodically send out blast emails containing non-time sensitive information about upcoming events, ongoing school projects, and other issues of concern. Please ensure that the email address that appears on the attached form is correct.

Phone

Our contact information lists up to three phone numbers for each parent:

- O Home phone number
- W Work phone number
- C Cell phone number

In the event of a school closing (i.e. a snow day), delayed opening, or early release, we will send out a robo-call to the phone numbers listed on each student’s emergency contact form.

Text

We will send out texts to parents who “opt in” to receive them whenever school must be closed. Note that FCC regulations prevent us from sending unsolicited texts to parents/guardians. You must opt-in using the following procedure:

- Send a text message to 68453 with the text “optin”.
- You may then receive a confirmation message asking you to reply “y” to confirm that you want to receive messages from Edgemont.

Note that standard text messaging rates apply to texts that you receive from this system.
